

CAPTURE THE MOST CRITICAL EVENTS IN PUBLIC SAFETY

When you draw your firearm, technology should be the last thing on your mind. Axon Signal Sidearm is a smart sensor that attaches to your holster. It alerts Axon cameras within 30 feet to begin recording the moment your firearm is removed.

FEATURES

UNIVERSAL: Sensor can be added to most popular holsters.

WIRELESS: System alerts Axon cameras within a range of 30 feet to begin recording.

SMART: Audit trails from Axon cameras show each time the sensor triggers a recording.

WHY SIGNAL SIDEARM?

IT'S EASY: Record events without tapping a button. That way you can focus on the situation in front of you.

IT'S RELIABLE: Replaceable battery lasts more than one year and alerts users when it's low from Evidence.com.

IT'S CONNECTED: Signal Sidearm is part of the Axon network – that means your technology is safe and secure.

IT'S SUBTLE: Signal Sidearm is almost unnoticeable and doesn't affect the use of your firearm.
