## WHAT IS AXON AWARE TECHNOLOGY?

Picture this: An officer is in a foot chase away from her vehicle, alone. She's heading into unfamiliar terrain fast. The suspect has drawn a weapon. It's life or death.

Thankfully, command staff back at HQ are with her every step of the way. With her camera already recording, they can pull up her live-stream from a precise map and send backup to her exact location. Together they apprehend the suspect, and everyone is unharmed. That's Axon Aware. With a combination of sensors, embedded GPS and an LTE connection, Aware brings new possibilities to keep officers safe.
